

Evaluation Letter

Erasmus+ Youth Exchange

"Voices of Change: Empowering Youth Through Digital Storytelling (V.O.I.C.E.)"

13–20 April 2026, Latvia

With this evaluation letter, SKE Pissouriou would like to express its reflections on the Erasmus+ Youth Exchange **"Voices of Change: Empowering Youth Through Digital Storytelling (V.O.I.C.E.)"**, which took place in Latvia from 13 to 20 April 2026.

The project provided an excellent opportunity for young people to develop their digital, social, and intercultural competences through a variety of engaging non-formal educational activities. Participants gained valuable knowledge and practical skills in digital storytelling, video creation, communication techniques, media literacy, and responsible use of digital tools. Through collaborative workshops and international teamwork, they explored important topics affecting young people today, including social inclusion, mental health, active citizenship, misinformation, stereotypes, and youth participation.

The Cypriot participants were highly motivated throughout the project and actively contributed to all activities. Working in multicultural groups enabled them to improve their English communication skills, strengthen their self-confidence, and develop a deeper understanding of different cultures and perspectives. The creative process of designing and producing digital stories encouraged critical thinking, teamwork, problem-solving, and innovation.

The facilitators and participants from Cyprus were extremely satisfied with the quality of the educational programme, the supportive atmosphere, and the opportunities for learning and personal development. The activities were well-balanced, interactive, and meaningful, allowing participants to express themselves creatively while addressing important social issues. The project successfully created a safe environment where young people felt encouraged to share experiences, exchange ideas, and build friendships with peers from different countries.

The cooperation among partner organizations was excellent throughout all stages of the project. Communication before, during, and after the mobility was effective and transparent, ensuring that participants were well prepared and supported. The hosting organization demonstrated a high level of professionalism and commitment, contributing significantly to the success of the exchange.

We are very pleased to have participated in this project and consider it a highly successful and impactful learning experience. The objectives of the project were fully achieved, and the acquired knowledge, skills, and results will be further disseminated through local activities, presentations, and community initiatives in Cyprus. We believe that the project has strengthened the participants' ability to use digital storytelling as a tool for social awareness, active participation, and positive change.

On behalf of SKE Pissouriou, we would like to sincerely thank the hosting organization, JUNONA+, all partner organizations, facilitators, and participants for their dedication, cooperation, and enthusiasm. We highly value this partnership and look forward to future collaborations within the Erasmus+ Programme and other international initiatives.

Sincerely,

Haris Stylianides
President
